

About these Videos

In April & May of 1990 before we bought the Park Dick & Flo Leeper (5 Golfo Street 1989 to 2014) made this VHS video for their friends Bonnie & Rex Smallwood who had left for the season.

I assume as there was some scenes of my family Dick gave me a copy which somehow became lost in storage on Cape Cod.

I'd long forgotten about it until it turned up in things we brought back this spring.

The original video is an hour and 35 minutes, in very poor condition and quality. It covers GTB, Merchants crossing, Beach Rd. from McDonalds to L&K, a boat trip in Lemon Bay Etc. You will notice the beach is badly eroded, also a glimpse of the "Monster" noisy sewer plant and many of the residents at the time.

I have converted it to digital format and cleaned it up as best I can and divided it into parts of reasonable viewing length.

At this time I have 2 parts done and no idea how many parts it will make, I'll upload them as time permits.

You will notice the vast improvement the cooperative has made over the years.

It took a while to pin down the exact year but managed by searching old Listening posts.
